INDEX TO VOLUME 55

JANUARY-JUNE, 1907

GENERAL INDEX

A

Accidents in the U. S., 533
Advertising, Engineering, 748
Advertising value of personality, 115
Air, Sanitation of, 158
Alcohol, Value of, for automobiles, 247
American Society for Testing Materials, 750
Anchor pier towers of Quebec bridge, *34
Anchorages of the Singer building tower, *542
Appraisals of engineering equipment, 751
Aqueduct bridges on Ill. & Miss. canal. By F. W. Honens, *769
Aqueducts:
Owens River, for Los Angeles water supply, *107
Reinforced concrete, Kaministiquia River, 140
Arches:
Brick, New York Boulevard, *523
Concrete bridges in Bavaria, *575
Architects, Licenses for, in Illinois, 566
Architects' certificate, Legal decision, 667
Armory drill hall, Providence, R. I., *474
Artistic character of concrete. By A. O. Elzner, 43, 85
Ash handling plant of D., L. & W. R. R., Scranton, *355
(See also Coal handling.)
Ash hopper used under boilers, *366
Asphalt paving industry, Progress in, 653
Asphalt plants:
Brooklyn municipal, *576
Design and construction of, *151
Asphalt repair plant, Kansas City, Mo., 636
Atlas Portland Cement Co.:
Rock excavation at quarries. By W. R. Halbert, 611
Shutdown of plant, 615
Land reclamation in, 530
Gas welding, *746
Piles:
Road tests of, 247
Service of British railways, 12
and motor vehicles, 57, 87
Opportunity for, 224
of, by engineers and contractors, 668

B

Ballast plant of Millard Construction Co., 394
Bay State Dredging Co., 659
Barrage at Whipple Point, Construction of, 512
Beams:
Steel, in mill construction, 194
Wooden built-up, effect of fire, 194, 330
(See also Reinforced concrete.)
Bender, Hunt, *612
Bethlehem Steel Co., Time-penalty decision, 633
Bids at figures below cost, 399
Block signals. (See Signals and signaling.)
Boiler explosion laws, 306
Boiler house of Swift & Co., *439
Boilers:
Metropolitan Life building, *97
Priming, Cause of, 314
Scale in, Effect on heat transmission, 612
Tests with Illinois coal, 206

Bomb-proof pumping station at Gibraltar, 610
Book reviews:
Alternating Currents. By C. G. Lamb, 193
American Steam Engineering. By W. E. Crane, 193
American Steel Works. By E. R. Markham, 221
Analysis and Softening of Boiler Feed Water. By E. & F. Wehrenfennig, 532
Anatomy of Bridgework. By W. H. Thorpe, 451
Architects' Directory, 637
Batter Tables. By C. G. Wrentmore, 220
Boiler Waters. By W. W. Christie, 586
Canal de Suez, 111
Cement and Concrete. By L. C. Sabin, 585
Chemistry and Technology of Mixed Paints. By M. Toch, 193
City Roads and Pavements. By W. P. Judson, 83
Concrete and Reinforced Concrete Construction. By H. A. Reid, 396
Concrete Factories. By R. W. Lesley, 426
Dangers of Municipal Ownership. By R. P. Porter, 138
Denatured or Industrial Alcohol. By R. F. Herrick, 664
Design and Construction of Hydro-Electric Plants. By R. C. Beardsley, 692
Design of Walls, Bins and Grain Elevators. By M. S. Ketchum, 692
Disposal of Municipal Refuse. By H. de B. Parsons, 138
Economics of Road Construction, 111
Electric Transmission of Water Power. By A. D. Adams, 83
Electrical Engineering in Theory and Practice. By G. D. A. Parr, 221
Electrical and Magnetic Measurements. By F. W. Roller, 425
Elements of Mechanical Drawing. By A. A. Tittsworth, 341
Elements of Sanitary Engineering. By Mansfield Merriman, 220
Engineering Index, 138
Forms for Concrete Construction. By S. E. Thompson, 368
Handbuch fuer Eisenbetonbau, 692
Ice Formation. By H. T. Barnes, 369
Locomotives. By H. C. Reagan, 477
Long-Distance Electric Power Transmission. By R. W. Hutchinson, Jr., 557
Machine Design. By C. H. Benjamin, 220
Management of Electrical Machinery. By F. B. Crocker and S. S. Wheler, 138
Manual of Examinations for Engineering Positions. By Lewis and Kempner, 557
Mechanical Draft. By J. H. Kinealy, 313
Mechanical Engineering Materials. By E. C. R. Marks, 637
Mechanics of Hoisting Machinery. By J. Weisbach, 637
Modern American Machine Tools. By C. H. Benjamin, 585
Modern Plumbing. By R. M. Starbuck, 637

Book reviews: (Continued.)

Modern Practical Carpentry. By George Ellis, 341
Modern Steam Engineering. By G. D. Hiscox, 664
Ocean and Inland Water Transportation. By E. R. Johnson, 313
Operation, Care and Repair of Automobiles. By A. L. Clough, 665
Pocketbook of Mechanical Engineering. By C. M. Sawes, 396
Principles of Mechanism. By H. A. Garratt, 637
Problems in Surveying, Railroad Surveying and Geodesy. By Ives and Hilts, 341
Producer Gas. By J. E. Dowson, 221
Pumping Machinery (German). By Hartmann and Knoke, 221
Punches, Dies and Tools for Manufacturing in Presses. By J. V. Woodworth, 774
Purification of Boston Sewage, 111
Railroad Location. By F. Lavis, 167
Report on Tests of Metals and Other Materials, 719
Rumford Fire Places. By G. C. Gillespie, 585
Sanitary Engineering. By L. F. Vernon-Harcourt, 368
Self-Propelled Vehicles. By J. E. Homans, 83
Sewage and the Bacterial Purification of Sewage. By Samuel Rideal, 586
Six-Chord Spiral. By J. R. Stephens, 451
Skyscraper. By T. Starrett, 396
Slide Rule. By C. N. Pickworth, 637
Steam Turbines, Practice and Theory. By L. G. French, 342
Textbook on Geodesy and Least Squares. By C. L. Crandall, 719
Textbook of Hydraulics. By L. M. Hoskins, 167
Textbook of Roofs and Bridges. By Merriman & Jacoby, 477
Textbook of Topographical Drawing. By F. T. Daniels, 774
Tools for Machinists and Woodworkers. By Joseph Horner, 138
Treatment of Storage Batteries. By R. W. Vicary, 368
Value of Pure Water. By G. C. Whipple, 451
Zentrifugalpumpen, Die. By Fritz Neumann, 167
Bracing of vaulting, 561
Brass foundry, Healthful conditions in. By W. B. Snow, 713
Brick, Tests of sand-lime, 180
Brick and brick piers, Strength of. By J. E. Howard, *218
Brick arch, Old, in India, 382
Bridge erection, Modern, 170
Bridges:
Aqueduct bridges on Ill. & Miss. canal. By F. W. Honens, *769
"Auld brig o' Ayr," 561
Bascule, near Rahway, N. J., *465
Bass River drawbridge, Beverly, Mass., *363
Bavaria, Concrete arches in, *575
Blackwells' Island:
Erection of cantilever spans, *284
Erection of Western half, *717
Progress of erection, *670
Bronx River, New York, *212

Bridges: (Continued.)

Concrete, recommended by Illinois Highway Commission, *501
Conn. Ave., Wash., D. C., *172
Dayton, Ohio, Washington St., *248
Dellwood Park, Ill., *165
Drawbridge recommendations in New York State, 422
Drawbridges, Abuse of, 257
Factory St., at Canal Dover, Ohio. By E. Stingel, *144
Floating Brunot's Island bridge, *234
Gantry, Lackawanna Steel Works, *213
Germany, across River Iller, near Kempton, 217
Goshen, Ohio. By Edward Stingel, *407
Haverhill, Mass., Erection, 473
Havre de Grace, Penn. R. R.:
Erection, *417
General description, *325
Hell Gate, New York, *648, 667
Hong Kong, *616
Hudson River, at New York, 171
Ill. & Miss. canal, *769
Taw River at Kansas City, *395
Khushalgarh cantilever, across the Indus, 464
Lachine, Erection of, *358
Lehigh Valley R. R. Towanda, Pa., *305
Leighton bridge, Central R. R. of N. J., *272
Lifting 293½ ft., span 85 ft., *213
Movable bridges, 427
Newark, N. J., Jefferson St., *181
Noteworthy early examples of long-span bridge erection. By F. W. Skinner, *229, *358
Parkersburg, B. & O. R. R., Reconstruction, *318
Peoria, Ill., Steel sheet piling, *246
Piney Creek, Wash., D. C., *88
Quebec:
Anchor pier towers, *34
Erection attachments for bottom chords and vertical posts, *71
Erection of main vertical posts, *92
Erection of south anchor arm, *291
Handling eyebars, *153
Superstructure details, *736
Traveler for erection, *198
Rio Fiscal, on Guatemala Ry., *386
St. Louis, across Miss. River, 197
Sandy Hill, N. Y.:
Concrete blocks in, 694
General description, *539
Scranton, Pa., D., L. & W. R. R., *728
Special structures for Chicago track elevation, *595
Tehuantepec R. R., 726
Wabash R. R., Decatur, Ill., 281
Warehouse Point, Conn., *520
Washita, I. T., Wreck of falsework, *96
Westchester River, N. Y. & N. H. R. R., Removal, *759
Bridging of tunnels, 721
Brighton Beach improvement of Brooklyn Heights, R. R., *603
Builder's skilled army, The, 225
Building laws of New York, 317
Building materials, Crushing old, 547
Buildings:
Balt. & Ohio R. R. office, *660, 681
Church, Duplication of, 565
Cincinnati Zoological Garden, *252
City Investing Co., New York, *267, *696

Buildings: (Continued.)

- Clafin, New York:
Heating and electric equipment, *207
Sprinkler system, *329
Concrete, Test of, 473
Convocation Hall, University of Toronto. By C. L. Hubbard, *715
Eastman Kodak, Failure, *11, *138, 142
Engineering Societies:
Dedication, 480
General description, *449
Heating and ventilating plant, *186
Foundry buildings, Design and construction of. By G. K. Hooper, 662
Girard Trust Co., Phil., *239
Hoffman House extension, Foundations, *296
Holy Angels School, Buffalo, *491
Ketterlinus Lithographic Mfg. Co., *128, 194
Keyser building, Baltimore, *49
Marlborough apartment house, Baltimore, *99
Metropolitan Garage. By A. Jordahl, *45
Metropolitan Life:
Power plant, *97
Tower, *51, 87, *146
Montgomery Ward, Chicago, *571
Murphy Varnish Co.'s factory building. By W. F. Burleigh, *555
National Shawmut Bank, Boston, *495
New York municipal office building, 48
People's Palace, Boston, *545
Plaza Hotel, New York, *418
Providence armory drill hall, *474
Reinforced concrete:
Handling materials, 718
Laundry building, *677, 704
Metropolitan Garage. By A. Jordahl, *45
Murphy Varnish Co., *555
Walker residence, *91
(See also Reinforced concrete.)
Salvation Army, New York, *738, 723
Scribner Press, Structural details, *18
Shoring 15-story building, *235
Singer building:
Anchorages of tower, *542
Foundations, *116
Structural details, *599
Tower steel details, *630
Underpinning, *275
Steel beams in mill construction, 194
Steel framework of a shop, *527
Swift & Co., Chicago, *439
Title Guarantee & Trust, Heating and ventilating, *656
Traders' Bank, Toronto, Foundations, *731
Traders' Bank, Toronto, Foundations, *731
Tribune, New York, Extension, *642
Trinity and U. S. Realty buildings, *302, 539
Trust Co. of America, *742, 723
Underpinning. (See Underpinning.)
Vibration of textile mills, 735
Walker residence of reinforced concrete, *91
Warehouse of composite construction, Brooklyn, *19
Warehouse, Storage, in Cleveland, *411
Washington Apartment House, Baltimore, *74
Watah Pulp & Paper Co., *442
Wright Building, St. Louis, Wind bracing in, *392
(See also Shops.)
Buying equipment on rush orders, 196

C

- Cable subway at Aberdeen, *110
Caissons:
City Investing Building, *267
765
Reinforced concrete, for bridge piers, Singer building, *116
Cameron septic tank patent, 399, 403
Canals:
Calumet, 132
Calumet, and the lake levels, 113
Chenab, in India, 515
Electric towage, in Europe, 68
Electric tractors on Seltow canal, 352
Great Britain, Improvements, 518
Hydraulic lift lock at Kirkfield, Ontario, *415
Manchester, Receipts, 326
New York barge:
Between Hudson and Mohawk Rivers. By H. P. Willis, *424

Canals: (Continued.)

- Improvements. By W. B. Landreth, *463
Pile drivers on. By Emile Low, *298
Niagara ship canal, Proposed, 350
Panama:
Construction bids, 57
Engineer in the field, 315
Gatun dam and lock site, 87
Gatun locks, 196, 561
Laborers, 156
Locks, Report on foundations for, 561
Recreation for employees, 288
Reorganization of Commission, 225
Resume of work accomplished. By F. B. Maltby, 681, 709
Sanitation, 688
Type of canal, 140
Seepage losses from. By Elwood Mead, 532
Soo canal traffic, 666
Steel-lined irrigation canal, Egypt, 476
Suez, 111
Candle-power rating at Colorado Springs, 344; By L. G. Carpenter, 452
Car inspection sheds, Heating, *607
"Carnage of peace," 533
Cars, Ganz steam motor, C., R. I. & P. Ry., 553
Cart, Refuse collecting, *626
Cassatt, Alexander Johnston, 3
Ceiling, Suspended, in Keyser building, Baltimore, *49
Cement:
Clay in cement mortar, Effect of, 504, 703
Fire test of Portland, in B. C. By Adolph Neu, 28
Report on cement for building construction, 686
Specific gravity of Portland, 176
(See also Concrete.)
Cement industry:
German, 330
Heavy production, 615
U. S., in 1906, 424
Cement laboratory of Reclamation Service, 507
Central stations and the technical graduate, 429
Centrifugal force on curves and its resistance by track, 343, *353
Certificate that was not final, 667
Channel in Great Lakes from Chicago to Buffalo, 20
Checking of structural steel deliveries for mill buildings. By F. L. Smith, 259
Chimneys:
Demolition of smokestacks in Munich. By T. Rosenberg, *478
Kingsland shops, 13
Steel stack, Erection methods, 96
Cincinnati Zoological Garden, *252
Classification of excavation, 323
Clay in cement mortar, Effect of, 504, 703
Clock tower, Steel, *38
Coal:
Purchase of, by specification, 437
Tests of Illinois coal. By H. B. Dirks, 205
Coal deposits, River bed, Reclaiming, at Harrisburg, 358
Coal-fields:
New English, 454
Philippines, 416
Coal handling:
Kingsland shops, *14
Penn. R. R. coaling station at Morrisville, *513
Storage in private plant, *510
Tower of the new Waterside Station, New York Edison Co., *60
Wharf at Guantanamo, Cuba, *160
Coal pockets of Salem mines, *554
Coalite, in London, 676
Cofferdam of steel piling, *175, *246
Colliery equipment, Sayre, 436
Colorado Springs lighting controversy, 744, 452
Columns:
Cast-iron, Special top for, *20
Charing Cross station, *585
Design of reinforced concrete. By C. F. Walthers, 558
Reinforced concrete, *596
Reinforced concrete, Carrying steel trusses, *8
Singer Building, *600
Tribune Building, *644
Combustion, Effect of altitude on, 337
Committee and research work by societies, 141

Compensation for engineering services, 86, 90

- Compressed air plant of General Electric Co., 276
Concrete:
Artistic treatment of. By A. O. Elzner, 43, 85
Cement for building construction, Report on, 686
Collapse of roof arches at Lawrence filter, 506, *524
Concrete construction, Details of. By L. J. Hotchkiss, *338
Expansion joints in. By James Gray, H. J. Livingston, 27, 28
Fatigue of, 29
Finish for surfaces. By H. H. Quimby, 94
Frame for sieves, *580
Freezing, Prevention of, by Calcium chloride. By R. K. Meade, 501, 719
Impervious concrete, 398
Lime concrete, Ancient, 164
Mechanical analyses of mixtures of cement, sand and stone, *581
Oil, Effect of, on concrete. By H. V. Clotts, 168; J. L. Gray, 313
Permeability of, *582
Proportioning, Laws of, *580
Proportions for, Selecting, 127
Safety in concrete construction. By R. L. Humphrey, 81
Salt water, Effect of, 659
Sand for, Effect of clay in, 504, 703
Stalactite masses on concrete exposed to water, 389
Surface treatment. By Linn White, 126
Water, Effect of, 650
Concrete blocks in Sandy Hill bridge, 694
Concrete mixing plants:
Canal Dover bridge, *145
Wilmington, Del., filter plant, *551
Conduit construction on Gen. W. J. Palmer's estate, *511
Contract work, Portable railways on, 553
Contracting organization, The successful, 224
Contracts and contractors:
Bids at figures below cost, 399
Contract methods of doing work, 479
Cost-plus-premium contracts, 58
Excessive time required for contracts for public works, 640
Final certificate that was not final, 667
Forms of contracts, 85
Lack of supervision of work by contractors. By A. Swartz, 396
Poor contract for mechanical stoker, 150
Responsibility for failure of work under construction due to causes beyond contractor's control, 2
Security for, 315
Copper, Amount of, on telephone lines, 18
Copper mining in the Lake Superior district. By F. W. McNair, 38
Cost-plus-premium contracts, 58
Cranes:
Loading slabs, with crane, *595
Locomotive crane, *597
Structural plant cranes, *548
Creosote, Investigation of, by U. S. Forest Service, 354
Crushing old building materials, 547
Curves, Centrifugal force on. By F. W. Schwieters, 28, 423

D

- Damper, Louvre smoke-duct, *14
Dams:
Ashokan reservoir, *566
Assuan, Raising of, 455, 589
Bridge dams with Boule gates:
Mohawk River, *130
Moldau River, *65
Cracking of high masonry, 371
Cross River, Progress on, *4
Dellwood Park, Ill. By H. S. Knowlton, *164
Dyke type of earth dam, 507, *515, 533, 558, 612
European practice. By D. A. Watt, *65
Gatun, Borings at, 2
Gatun, and lock site, 87, 222
High dams, Types of, 114
Honk Kong water-works, *617
Minidoka irrigation project, *244
Puddle for core walls, 271
Roosevelt, Gates for, 84
Stoney gates, Revolving, 67

Dams: (Continued.)

- Vibrations in water falling over dam. By G. A. Troy, 84
Deaths from tunneling operations, 55
Dellwood Park, Chicago, Cost of concrete work, 377
Deliveries of structural steel at mill buildings, Checking of. By F. L. Smith, 250
Depreciation allowances discussed by Robert Hammond, 703, 748
Depreciation and maintenance in mills, 507, 584
Depreciation in gas engine plants, Reducing, 506
Derivation of constants for building losses. By R. C. Carpenter, 214
Deriving quantities directly from a profile with a planimeter, 738
Derrick car, *760
Derricks:
Floating, for handling riprap, 214
Moving derrick by cableway, *288
135-ft. steel, *571
Singer building, *117
Structural plant, *548
Tower, at Washington municipal building, *100
Traveling, for erecting girder bridges, *250
Distillery waste and stream pollution, 516
Distributor on sewage filters, *10
Docks:
Concrete ore dock on Cuyahoga River, 674
Floating dry dock, 31
Marquette, Mich., New ore dock, 594
Dome of Singer building, *630
Drainage:
Everglades, Florida, 274
Johannesburg, Transvaal, *46
Kankakee Marsh, Indiana, 664
Minnesota project, 250
Southern states, 251
Drawings:
Drawings for field use, 373, 452
Making, indexing and filing drawings. By J. J. Harmon, *189
Dredgers and the Federal eight-hour law, 659
Dredges:
Grab for handling rock, *557
Hydraulic, Lincoln Park, Chicago, 161
"Independent," *646
Large, for Indian government, 240
Dredging sand and gravel for commercial purposes. By R. J. Donovan, *21
Drilling blast holes at Hell Gate, Mont. By W. T. Kershner, 665
Dry docks, Floating, 31
Dumping bucket, Special concrete, *572

E

- Earth, Figure of, 263
Earth slide at North Dyke of Wachusett reservoir, 507, *515, 533, 558, 612
Earth volumes, Method of calculating. By G. L. Bilderbeck, 666, 692
Eastern Dredging Co., 659
Eastman Kodak building, Failure of, *138, 142
Economics of railway location, 513
Eight-hour law and dredgers, 659
Ejector practice, 719, 747
Electric generators, Railway, and the highway load, 50
Electric motors, Substitution of, for steam locomotives, 113, 122
Electrical installations, Safety in, 749
Electrical machinery, Ventilation guarantees, 668
Electricity in construction work, 223
Electrolysis, Discussion of, 371
Electrolysis in New Bedford, R. I., 751
Elevated railroad foundations over sewer, New York, *675
Elevated railroad yard, Building, *177
Elevators, High pressure, Metropolitan Life Building, *374
Ellis, W. H., 659
Embankment, Classification of, 316, 323
Enforcement of specifications. By C. B. Dudley, 755
Engineering, Returns of, 86, 90
Engineering chemistry in the power plant, 453
Engineering design, Economical, 223
Engineering estimates, 721
Engineering opportunities in public service work, 429
Engineers:
Central stations and technical graduates, 142

Engineers: (Continued.)

Compensation of, 86, 90
 Engineer in the field, 315
 Esprit de Corps of a technical organization, 197
 Municipal, of N. Y. City, 143
 Professional ideals of the twentieth century. By A. Hadley, 486
 Titles of, 84, 115
 Erection record, Allis-Chalmers, 445
 Foundations in soft soil, Reinforcement of, 254
 High-duty and low-duty pumping engines. By I. H. Reynolds, 726
 English Channel train ferry. By C. O. Burge, 477, 723
 Estimates, Engineering, 721
 Evaporation experiments, 624
 Excavation:
 Classification of, 316, 323
 Deriving quantities directly from a profile with a planimeter, 738
 Dry and wet excavating, 237
 Culbra cut excavation, 178
 Hydraulic, at Seattle, 422
 Rock, at quarries of Atlas Portland Cement Co. By W. R. Hulbert, 611
 Excavator, Lübecker, *299
 Explosion of thermal storage tank, 90
 Icebars, Handling at the Quebec bridge, *153

F

Federal eight-hour law and dredgers, 659
 Fence posts, Costs of concrete, 377
 Ferry across the English Channel. By C. O. Burge, 477, 723
 Ferryboat, Fireproof, for Penn. R. R., 54
 Ferry terminal, Staten Island, *761
 Filters, Oil, at power plant, *16
 Filters, Water:
 Albany, N. Y., *610
 Cleaning slow sand filters, 115
 Damietta, Egypt, *537
 Denver, *740
 Japan, *562
 Lawrence, Mass., Collapse of concrete roof, 506, *524
 Maignen pre-filter, 634
 Mechanical, Harrisburg, *331
 Moline, Ill., *705
 Sand filter plant costs, 133, 134
 Wilmington, Del., *550
 Wilmington, N. C., *156
 Filtration suits in Philadelphia, 143
 Financial conditions, 373
 Fire, Electric, at cotton mills in Montreal, 92
 Fireproof construction discussed by Soulé, Sewell and Humphrey, 698
 Fireproofing of girders, *19
 Fire protection:
 Claflin building, *329
 Independent supply systems, Report at Hartford, 583
 Water system of Winnipeg, Canada, 77
 Flood prevention, 399
 Flood prevention legislation in Pennsylvania. By F. Gannett, 532
 Flood protection at Ithaca, N. Y., *684
 Floors: Supporting second-floor centers by inclined posts during construction, *44
 Fog signal on Racine Reef, 384
 Foundations:
 Elevated railroad, over sewer, *675
 Singer building extension, *116
 Soft clay foundations, Tests of, *731
 Foundry:
 Brass foundry, Healthful conditions in. By W. B. Snow, 713
 Design and construction of buildings. By G. K. Hooper, 662
 Frozen streams, Measurement of, 216

G

Garbage crematory, Port Ontario, N. Y., *462
 Garbage disposal at Rochester, N. Y., 635
 Gas, Low-priced, Hamilton, Ohio, 722
 Gas company's work in San Francisco, 30
 Gas, control, Automatic, for producers, 767
 Gas engines:
 Automatic gas control for producers, 767
 Big gas engine question, 195
 Hot-water heating plant in small shop, 527

Gas engines: (Continued.)

Producer—in electrical power plant, *349
 Pumping plant at Rocky Ford, Colo., *496
 Reducing depreciation in gas engine plants, 506
 Self-starting, 96
 Gas lighting of railway premises in England, 54
